ROAD MAP

## OUR STORY

Money Pickers Coin (MPC) is not just a cryptocurrency—it's the result of a unique journey led by a passionate community and a prominent Portuguese YouTuber, @cemyssoares.

The story of MPC begins with the desire to create a fair financial group for everyone, aiming to help people achieve better financial health. This journey started with @cemyssoares, who, through his YouTube channel, gathered a community of like-minded individuals dedicated to financial education and empowerment.

After 15 months of collaboration and growth, some members of the community, decided to take the next step: creating their own token. This led to the creation of Money Pickers Coin, the first cryptocurrency token launched by a team of Portuguese emigrants on the SUI blockchain. This marks a historic moment, showcasing that even humble beginnings can lead to something significant.

The goal of \$MPC is to embark on a beautiful journey and a unique experience from the ground up. We aim to understand, step by step, how to create something big—starting from scratch with the creation of an X, Instagram, and all the necessary networks. Our aim is to prove that, as Lusitanian people, we are not quitters, and we are here to stay.

Money Pickers Coin, as a meme coin, carries the pride of this Luso team reaching out to the world. We are doing our best to show where five humble, hardworking men can go. If others have made millions in this industry with only a fraction of our capabilities, then why can't we, the humble and hardworking, also shine one day?

Our dream may be humble, but if we can reach the top of the meme coin rankings on the SUI network, that will be our ultimate goal.

**OUR GOAL**

- 10% = 100 000 000
- Bill's ( WebSite , X Premiun etc )
- Devs Team x 4 = 9 500 000
- 7 000 000 Airdrops
- 50 000 000 Marketing / Incenerator
- 2 500 000 Oink Rescue
- 2 500 000 Charity Choice Everyone
- 40% = 400 000 000 Liquidity
- 50% = 500 000 000 Pre Sales

**50%**  
**PRE SALE**

If we do not reach the total liquidity, the remaining tokens will be burned and will not be added to the liquidity pool! MPC will only be maintained with the tokens from the Pre-Sale and with the liquidity tokens mentioned above, which represent more than 50% of the supply.

The initial price was set at 0.0001 in the community sale of #moneypickers. When the liquidity calculation for Cetus was done, we found that the price was incorrect. Therefore, it was adjusted, and the wallets mentioned below were updated with the tokens at the correct price of 0.000005.

Thus, all those who received amounts at 0.0001 were later given the remainder to match the price difference. The legitimacy of this can be verified on SuiScan through the contract.

We are beginners, and regardless of everything, we are clean and clear. Therefore, it is marked and recorded for the future in this whitepaper, which will be finalized and sealed.
